

# Smart Networks

June Holley

Network Weaver

Plexus Institute

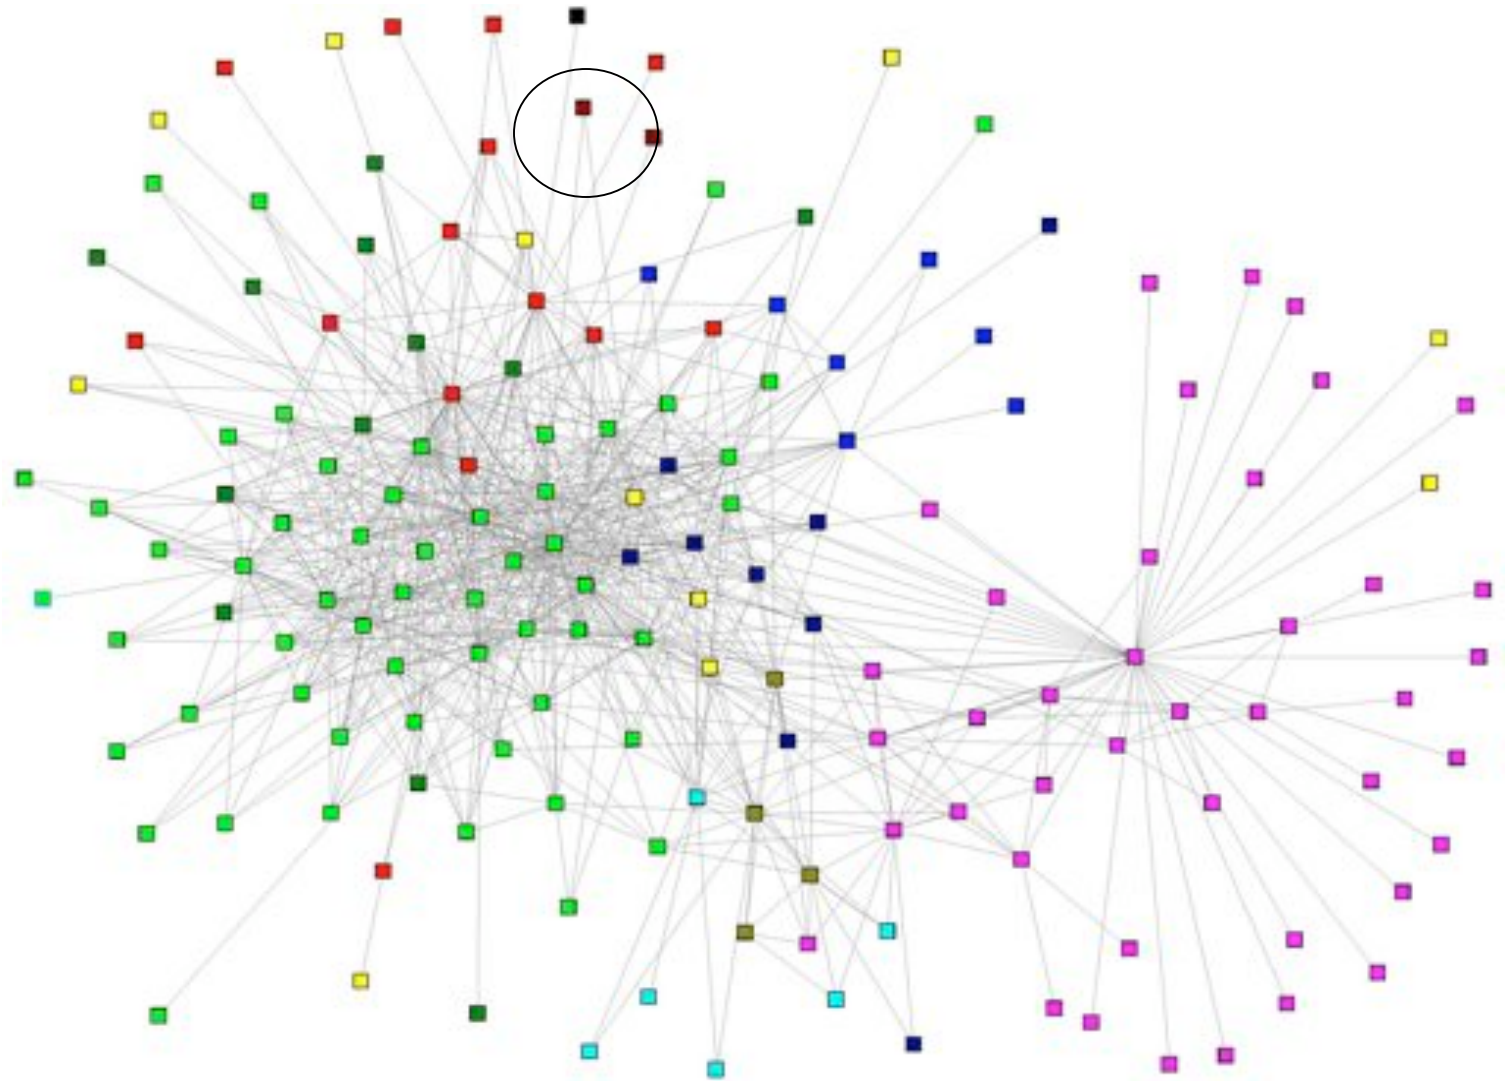

July 2009

How do we help people and organizations become more effective, innovative, collaborative, adaptable, inclusive?

# Where do you get new ideas that can help you create a more vibrant economy?

■ Outside the region

# The major counties have 20% Latino population

## Racial or Ethnic Background

- Mixed Background
- Latino
- White
- African-American
- Unknown

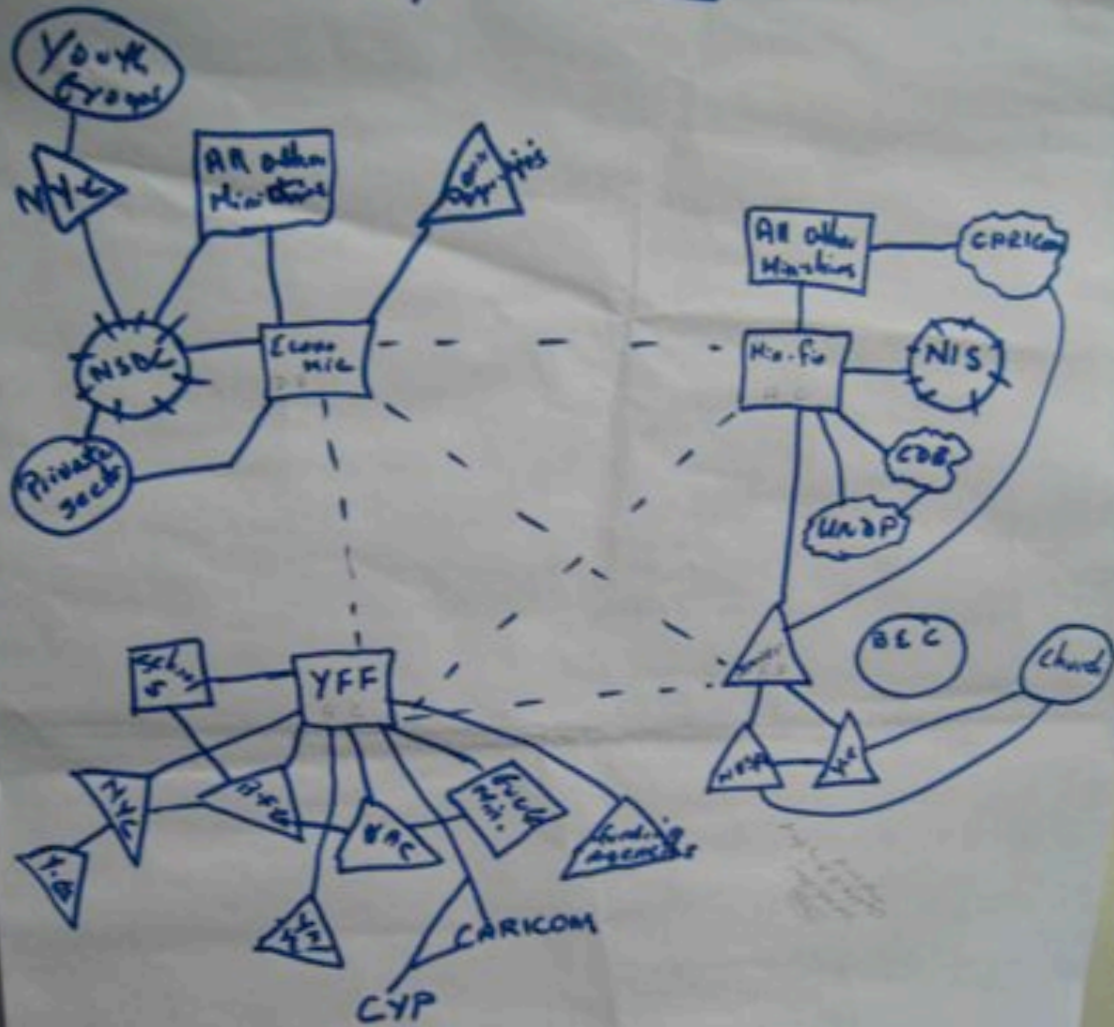

# 6 Smart Network Strategies

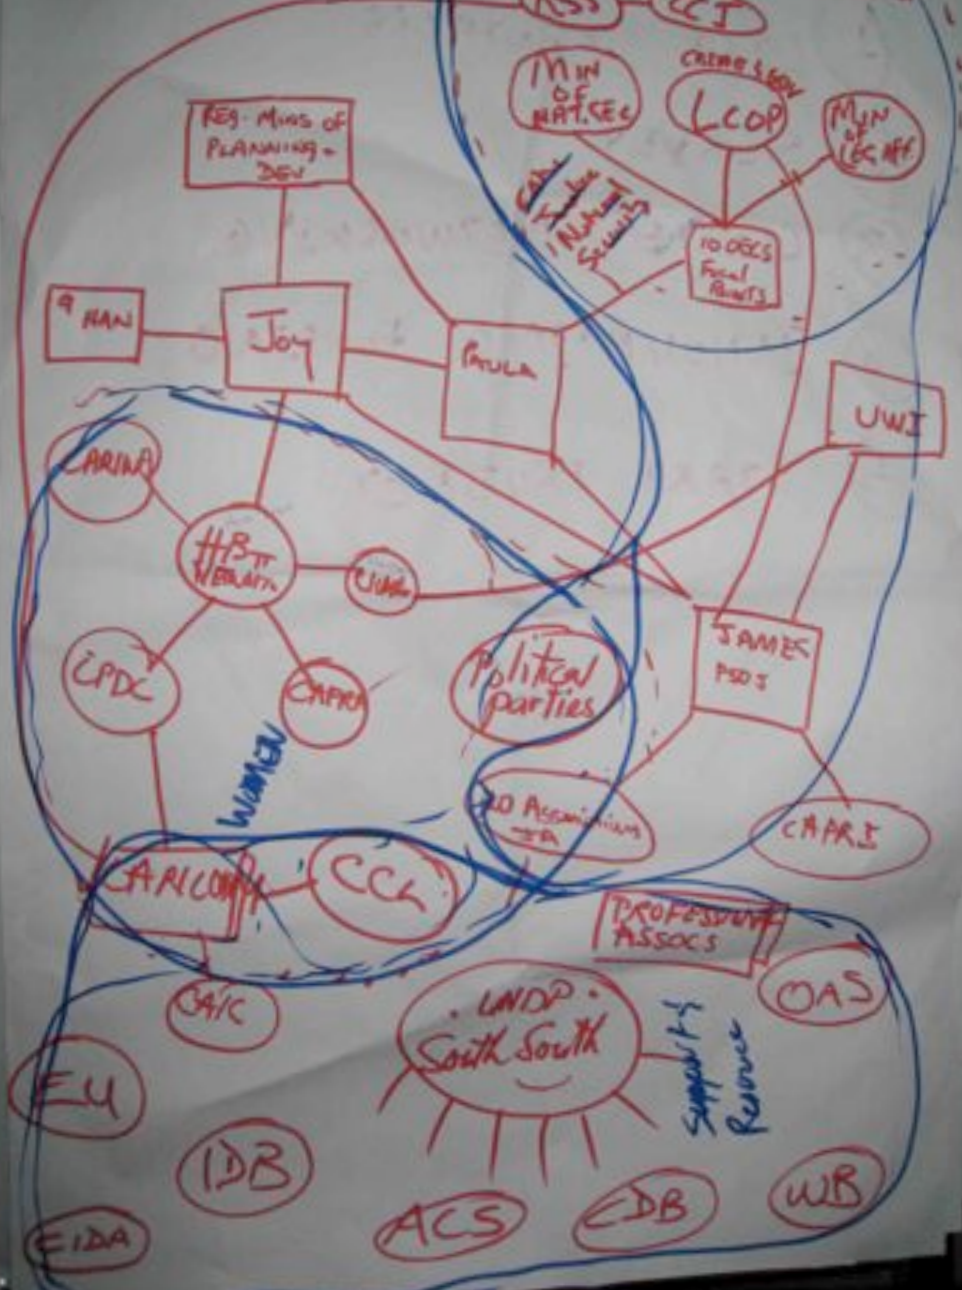

- Simple network maps
- Smart Network concepts for analyzing maps
- Network Weaving strategies for enhancing networks
- Computerized network maps & metrics
- Self-organizing strategies
- Rhizomatic acceleration of success

# Youth

GOOD GOVERNANCE GROUP GGG

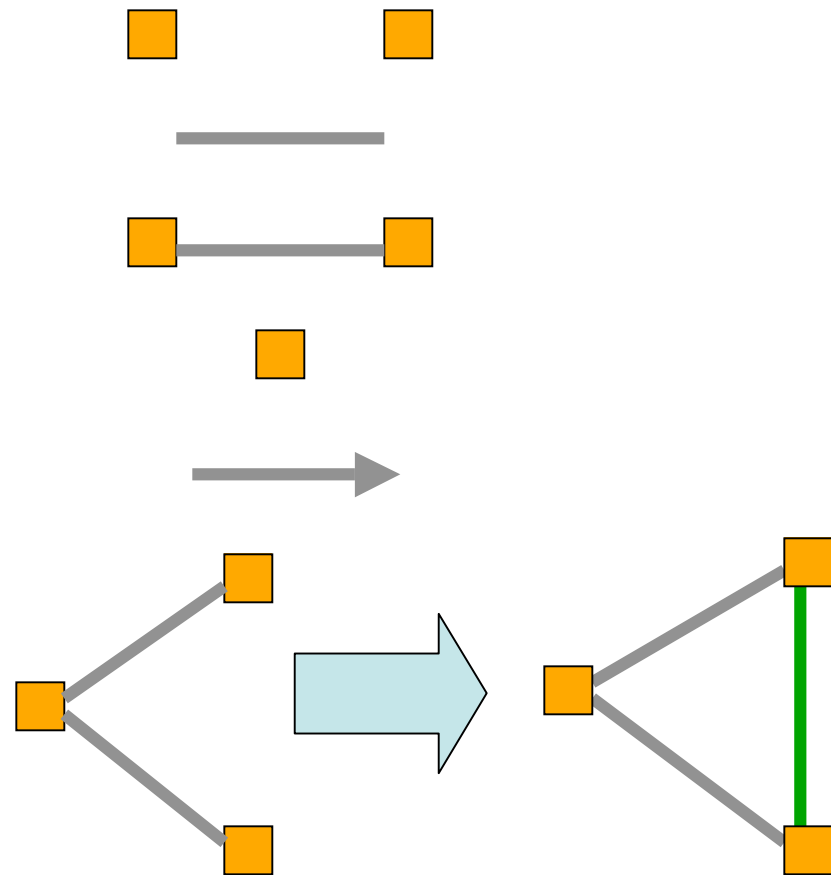

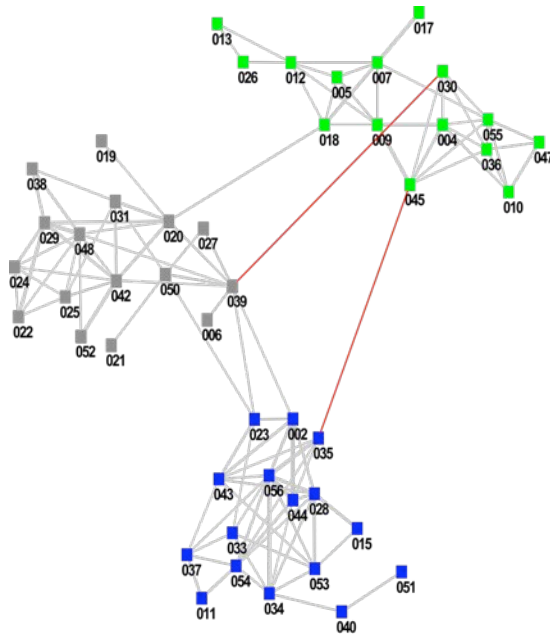

# Smart Network Concepts

# Network Basics

- Nodes
- Link
- Connected pair
- Isolates
- Directional link
- Triangles
  - Open
  - Closed

# Elements within Networks

Hub and spoke?

Clusters?

Elephant tails?

# Stage 1: Isolated Clusters

# Stage 4: Smart Networks: Networks most helpful in promoting collaboration & innovation

- Core consists of clusters w different perspectives who know & trust each other
- Periphery draws in new ideas & resources
- This represents a Field of Potential for action

# Smart Networks are Self-Organized

1. Many people initiate experiments & collaborations
2. Move from small acts to larger
3. Breakthroughs from diversity
4. Successful innovations spread

# What to Look For - Who is missing or under-represented?

- Young people, older people
- Under-represented populations
- Rural people
- Types of organizations
- Gender
- Politicians

# What to Look for -- Identify Key Roles

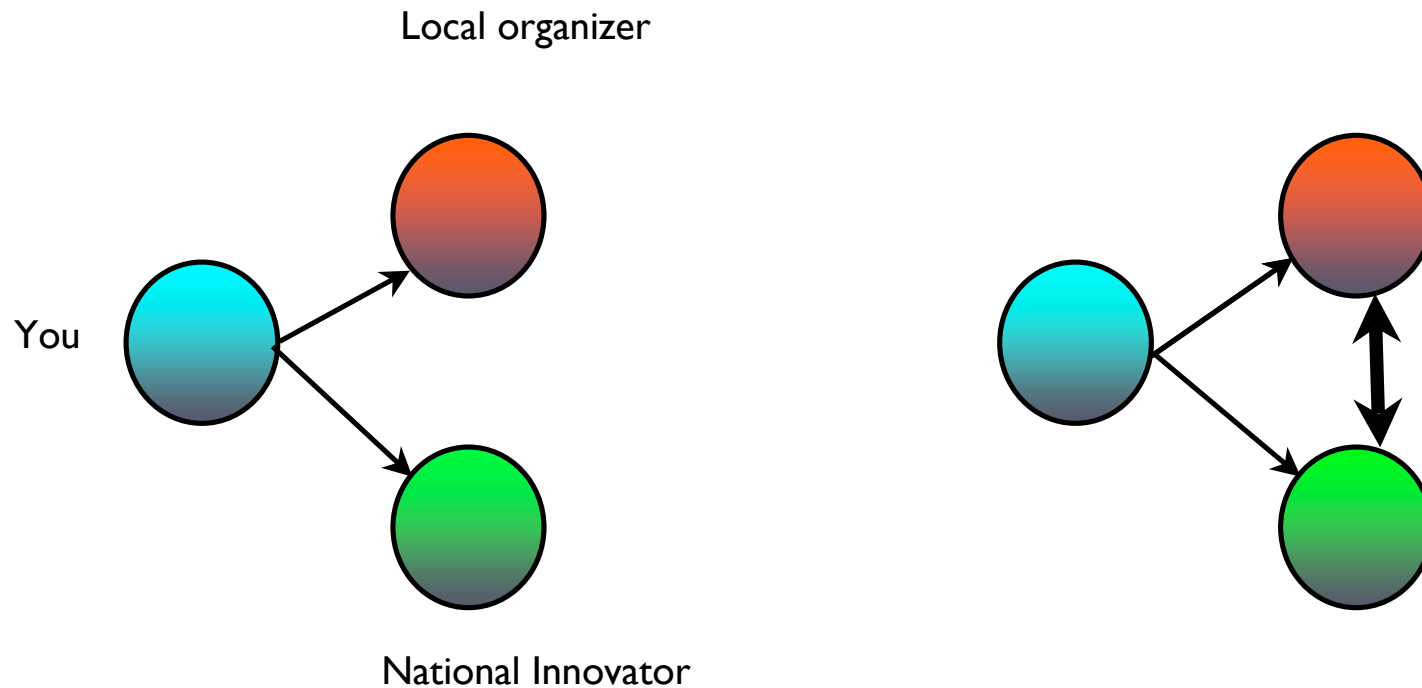

# Network Weaving

# Network Weaver Checklist

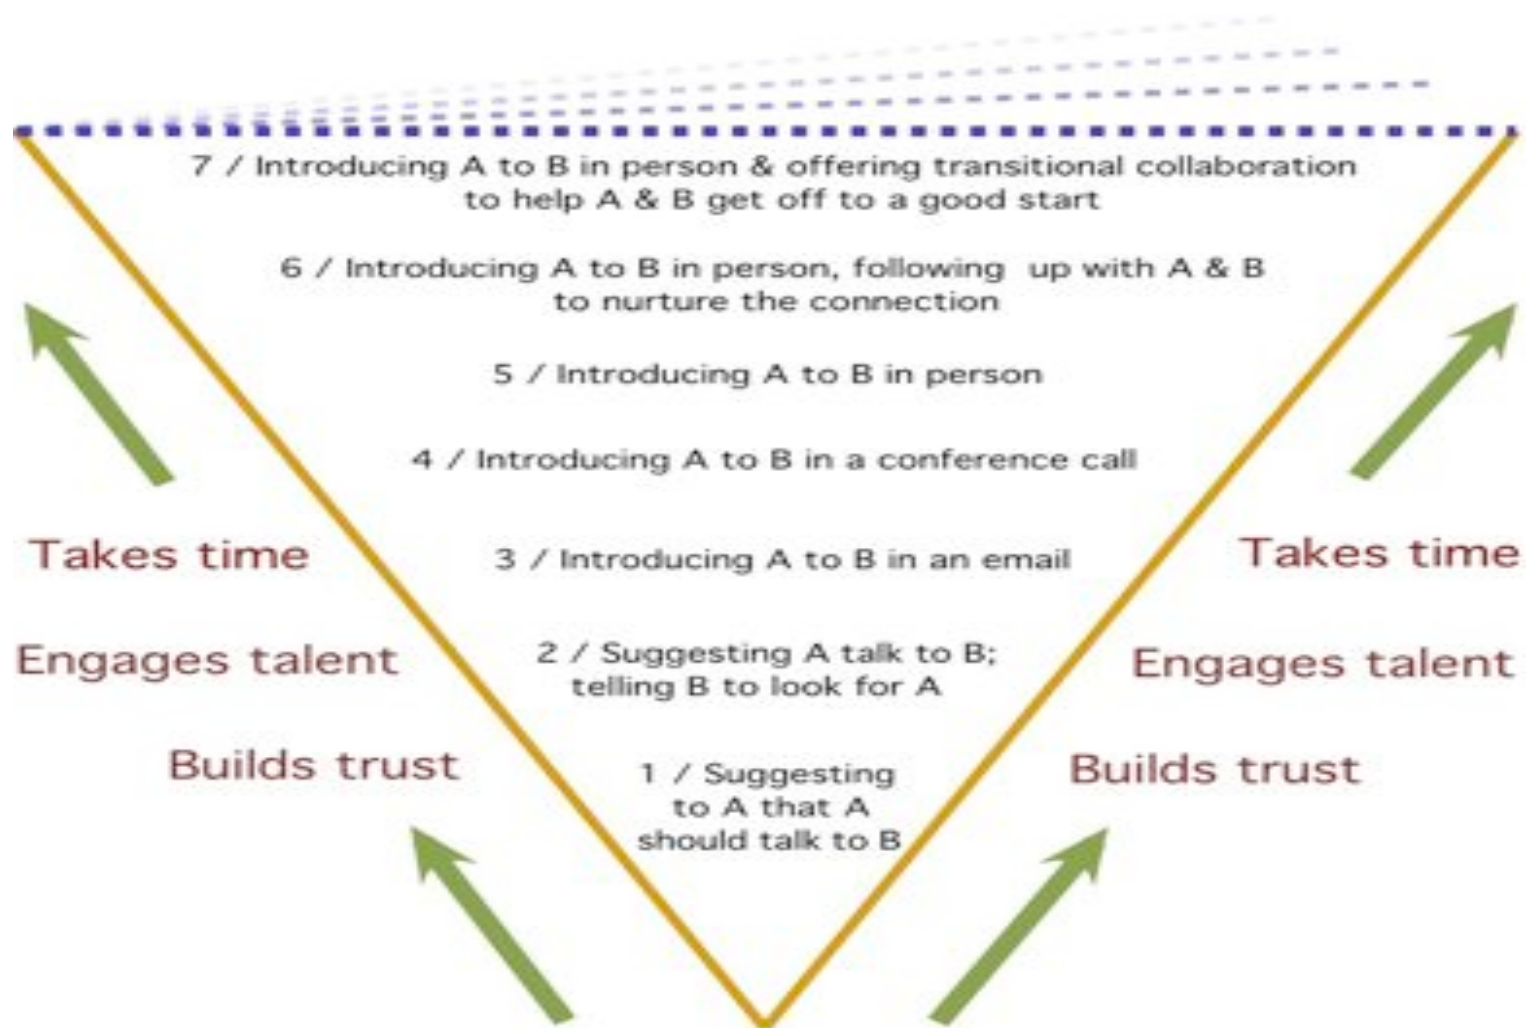

## Do you help build a network culture?

- \_\_\_ 1. Love to unearth other people' dreams and visions
- \_\_\_ 2. Model an approach to relationships that is positive, appreciative and focused on strengths & gifts
- \_\_\_ 3. Treat everyone as a peer
- \_\_\_ 4. Encourage complex reciprocity--sharing information & resources with others without expecting a return from that person because you know others will share with you
- \_\_\_ 5. Point out the value of knowing people with different perspectives and from different backgrounds
- \_\_\_ 6. Encourage people to see conflicts as opportunities to develop breakthroughs
- \_\_\_ 7. Encourage people to listen deeply to each other
- \_\_\_ 8. Insist that people check assumptions about what others are saying
- \_\_\_ 9. Encourage people to identify shared or overlapping interests or values
- \_\_\_ 10. Help people make accurate and realistic assessments of others
- \_\_\_ 11. Show people how to build trust through small, low-risk collaborations with others

# Close Triangles

- Both interested in the same thing
- One can help the other out

## The Introduction Pyramid

# Mapping Networks with Software

# Network mapping process

## Barbados

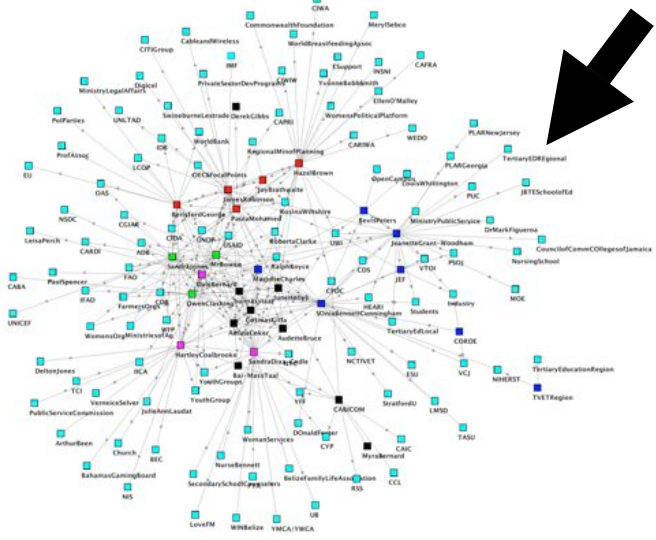

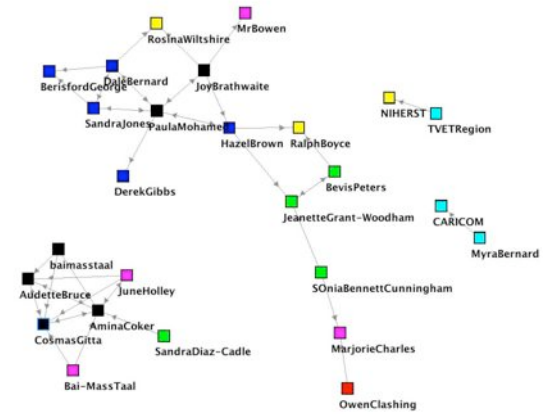

To save your survey at any time, you can scroll to the end of the survey and click the "Save" button. You can then exit the survey and return to complete it at another time. When you are sure that you have completed the survey, scroll to the end and click the "Submit" button.

### Section 1. Demographic Questions

Thank you for participating in this Network Mapping Survey! The purpose of the survey is to help us understand and strengthen our network. For each of the questions in Section 1, please click on the bullet of the ONE answer that is the best choice for you.

#### 1. country?

- Barbados
- Grenada
- St. Kitts
- St. Lucia
- St. Vincent
- Trinidad
- Belize
- Dominica
- Jamaica
- Other

# Data Collection Web-Based Survey

## Athens Farmers Market Survey

To save your survey at any time, you can scroll to the end of the survey and click the "Save" button. You can then exit the survey and return to complete at another time. When you are sure that you have completed the survey, scroll to the end and click the "Submit" button.

### Section 1. Demographic Questions

Thank you for participating in this Network Mapping Survey! The purpose of the survey is to help us understand and strengthen our network. For each of the questions in Section 1, please click on the bullet of the ONE answer that is the best choice for you.

#### 1. How long have you been a vendor at the Athens Farmers Market?

- Less than six months
  - Six months to one year
  - One to Five years
  - Five to Ten Years
  - More than 10 years
  - I am not a vendor
-

# Data Collection Web-based Survey

## Section 2. Network Questions

For the questions in Section 2, read the question and then identify the individuals in the list that follows who fit that question. Put your cursor in the box to the right of the person's name you have selected and click. A check mark should appear in the box. Select as many names as are appropriate to answer the question. At the end of the list of names there are blank lines. Please add the names (and organizational affiliation, if known) of any other individuals that fit the answer to that question. We especially encourage you to list names of people outside your organization or community in this space.

**1. Which of the following people do you have an established business relationship with around food and farm products? You may add other names after the list below.**

**2. Who has provided information, services, capital, mentoring and/or other resources that increased your effectiveness? You may add additional names after the list below.**

# Summary of Social Network Analysis Tool Types

*The SNA tools we surveyed can be broken into the following broad categories:*

Type	Description
<b><i>Advanced / Academic Social Network Analysis Tools</i></b>	<ul style="list-style-type: none"><li>• Often used in academic settings and intended for the most sophisticated types of social network analysis</li><li>• Often built for performance as opposed to usability</li><li>• User guides and help files are not comprehensive or are written for more sophisticated audiences</li><li>• Example: UCINET</li></ul>
<b><i>Accessible but Advanced Social Network Analysis Tools</i></b>	<ul style="list-style-type: none"><li>• Used in more general settings, including corporate environments</li><li>• Built with the user in mind and tend to be more intuitive and easier to use than tools for primarily academic applications</li><li>• Software help files are more comprehensive and user guides are written for a general user audience</li><li>• Example: NetMiner</li></ul>
<b><i>Simple, Easy to Use Social Network Analysis Tools</i></b>	<ul style="list-style-type: none"><li>• Can be used by users less familiar with social network analysis</li><li>• Tools are built without complex functionality and are very easy to navigate and use</li><li>• Help files are simple and clear</li><li>• Example: Smart Network Analyzer</li></ul>
<b><i>Online Tools That Enable Visualization of Preexisting User Generated Data</i></b>	<ul style="list-style-type: none"><li>• Used to analyze existing data made available by users</li><li>• Often simple to use with intuitive functionality</li><li>• Example: Xigi</li></ul>

# Smart Network Analyzer Network Mapping Software

- Developed by June Holley, Valdis Krebs and some Latvian graph theorists
- Some funding from Annie E Casey Foundation
- For inter-organizational networks
- Main criteria: easy to use

# Metrics

- Awareness: How likely is it that information will spread throughout the network? Who knows what is happening in the network?
- Influence: Who do people look to? How likely is it that people can positively influence others?
- Connectors: Who links people who would not otherwise be connected? How connected are parts of the network?
- Resilience: How dependent is the network on a few people?
- Integration: What is the overall network health? Who are network leaders?

# Metrics

<b>Network Metrics</b>				
	1	2	3	4
Connector	7.94	96.83	210.81	588.7
Integration	14.94	84.51	104.58	395.6

# Self-Organizing

Anyone seeing something that might  
make a difference, pulling together  
the talent and resources needed and  
making it happen!

# People form (mostly) small projects around passion and opportunity

## Opportunity

What opportunities do you see? What have we learned?

## Gifts

What talents and assets do we bring?

## Invitations

Who else do we need at the table?

## Small Acts

What small experiment are we willing to try?

# Interest Groups

# Interest Groups Become Action Groups

# Communication Ecosystem

# Coach Collaborative Project Coordinators

Help them:

- Build their relationship
- Check assumptions
- Make clear agreements
- Set timelines
- Reflect

Check-in frequently

Help them:

- Work out conflicts
- Think about next steps

Be Rhizomatic!

Network Strategies  
+  
Self-Organizing Experiments  
+  
Rhizomatic Acceleration  
=  
Transformation
